

SysTrack Cloud Edition – Terms of Service

Your use of Lakeside Software’s SysTrack service is subject to terms of service between Lakeside Software, LLC (“Lakeside” or “we”) and you. We offer the service under the Microsoft Standard Contract for the commercial Azure marketplace. To adapt that standard contract for our use:

1. We agree that the Microsoft Standard Contract governs your use of Offerings no matter how purchased; the Microsoft Standard Contract contemplates your purchase through Azure Marketplace, but you and Lakeside agree that these terms apply in all purchase arrangements.
2. When you purchase the service through any means other than Marketplace:
 - a. You and Lakeside agree that acceptance of the Order pursuant to paragraph 1(a) is by Lakeside instead of Microsoft; and
 - b. You and Lakeside agree that pricing and payment terms are governed by any relevant agreements in the purchasing process and the applicable Order instead of the terms specified in IX “Pricing and payment”.

Except as may be modified above, the terms of service are those stated in the Microsoft Standard Contract and as amended by SLA and other terms stated at
